# Top 5 Ranked Track name of year 2011

Spotify_top_hits_2011-2025

I have get this data by using Spotify API and using python Code , after getting data in csv format , data is transform in power bi .

Next cleaning , processing start. after all filtering, removing missing or null value, data is ready for modelling ,in last data is ready for visualization in power bi.
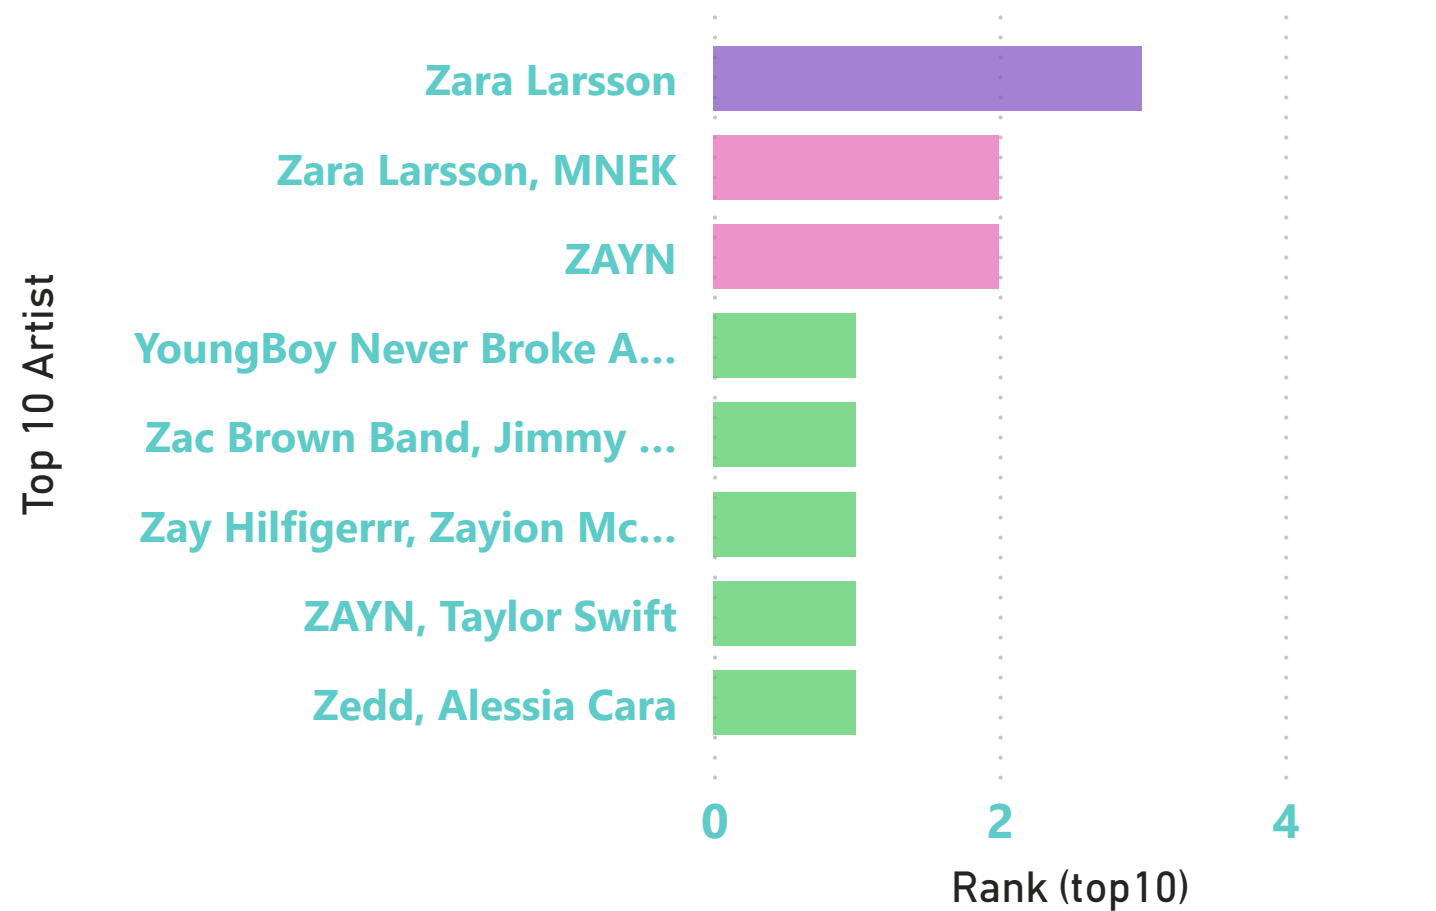

Creating Visuals from this Data

1. Clustered Bar Chart is used for visual top 5 track name of year 2011
2. Clustered Bar Chart is used again for visual top 10 Artist from 2011-2020
3. Clustered Column chart is used to visual Number of Artist sung song in year from 2011 t0 2025
4. Donut chart is used to visual Top songs of Arijit Singh

Number of Artist sung in year from 2011-2025

Top 10 Artist of year from 2011 to 2020

Top 9 songs by Arijit singh
